

Volunteers Wanted for a Study about Loneliness in Cambodian Americans

What is This Study?

This study explores the experiences of **Cambodian or Khmer Americans**. Participants will be asked to participate in a **90-minute interview** and/or a **1-hour focus group**, including questions about their experiences with loneliness, values, emotions, and important relationships.

You may be eligible to earn up to \$150 by participating in the project.

Why Participate?

- Offers you a chance to voice your experiences
- Aids in new research on Cambodian American health

Looking for Participants Who Are:

- Adults aged 18+ who self-identify as Cambodian or Khmer American
