FAQ for joining a Fall 2022 RAP

What if I encounter problems when I am trying to join a RAP?

Check the instructions on the [How to Join page](#) and be certain that you have completed all the required steps/tasks.

If you have completed all the steps and are still having trouble, please complete and submit the RAP Contact Form. Be sure to explain what you were trying to do and the problem that occurred.

I submitted RAP preferences between May 19 and May 23, but I wasn’t matched with a RAP. Can I still join a RAP?

Yes. Students who were not matched with a RAP through the RAP Preference Submission process will have the opportunity to join a RAP beginning June 1. To do so, log back into the RAP Placement System to see a list of RAPs you are eligible to join and have open seats.

Remember, you can join a RAP until the end of your Advising & Course Registration Appointment or until July 15, whichever is first.

How do I see other students who are in my RAP?

To see other students in your RAP, log in to the RAP Placement System and click the ‘View my classmates in RAP’ button on your homepage. Students who choose to share their contact information with their RAP peers will be able to see the information of other students who have chosen to share theirs.

What if the RAP that I want is full?

You can either identify and join a different RAP that you are eligible for that has open space or you may choose not to join a RAP. Feel free to check if space a has opened prior to your Advising & Course Registration Appointment or before July 15, whichever is first, if the RAP you are interested in remains full.

Will any spaces open later?

It is possible that spaces may open in RAPs prior to July 15. Sometimes students who hold a spot change their mind or they may need to drop a RAP if the required RAP course conflicts with a major requirement.

Remember, you can join a RAP until the end of your Advising & Course Registration Appointment or until July 15, whichever is first.

What happens if a course required for my major conflicts with the course affiliated with the RAP I joined?

Major requirements come first. If you discover during your academic advising appointment that you are unable to enroll in the RAP course, you will need to drop the RAP affiliated course and you will also need to drop the RAP. You will have the option to join a different RAP after you drop the conflicting RAP if there is one you are eligible for that has open space.
For answers to additional commonly asked questions such as how to choose a RAP, roommates, placement tests, the Housing Contract and Housing Preference Application, and many other topics, read through our comprehensive FAQ.
