Outreach and Engagement

Major Ongoing Community Engagement / Research Projects

Rudd Adoption Research Program – Inaugural holder of the Rudd Family Foundation Chair in Psychology and founding director of this umbrella organization for accomplishment of the goals of the Chair: advancing knowledge about the psychology of adoption; providing evidence-based knowledge to inform adoption policy and practice; and building capacity for excellence in adoption research. Organized and hosted ten major adoption conferences at UMass annually, 2009 – present.

Adoption Mentoring Partnership – in collaboration with Big Brothers Big Sisters of Hampshire County and the Amherst Schools, the program matches UMass students who themselves were adopted as mentors with children from the Amherst schools who were also adopted. The UMass site directs the mentor component of the project and conducts the research on program effects on the children and mentors (2009 – present).

Re-Envisioning Foster Care in America – in collaboration with the Treehouse Foundation, Friends of Children, and the Mass. Department of Children and Families, we are developing innovative practices and programs on behalf of children who are experiencing foster care. Efforts are focused in improving educational continuity, buffering the negative effects of “aging out” of the system at age 18, and helping every child connect with a permanent family. We have conducted research in the innovative Treehouse Community in Easthampton, co-organized six major annual REECA conferences (2010 – 2015), and collaboratively organized the Rudd – REECA conference in 2016.
