SACL Drupal Website Handout
## Edit Menu Links (pages that are available in menu navigation)

1. Hover over top right corner of menu list, click the ⚙▾ button drop-down and select **List links**
   NOTE: **Never select Edit Menu or Configure block** when editing menus.

2. The Menu Links List will appear

Remove a Page from the Menu (so it can no longer be clicked in the menu)
   1. **Uncheck** the box in the ENABLED column next to the page you wish to remove from the menu.
   2. Click the **Save configuration** button.

Include a Page on the Menu (so it can be clicked in the menu)
   1. **Check** the box in the ENABLED column next to the page you wish to add to the menu.
   2. Click the **Save configuration** button.

NOTE: to **create new pages** that did not already exist, please contact your system administrator. The above instructions can only be used for pages that have already been created.
