**Center for Teaching and Learning Hosting Workshop on Teaching and Wellness**

The Center for Teaching and Learning is hosting a Zoom workshop, “Teach and Be Well,” on Tuesday, Sept. 14, from 1 to 2:30 p.m. The Center for Teaching and Learning is hosting a Zoom workshop, “Teach and Be Well,” on Tuesday, Sept. 14, from 1 to 2:30 p.m.

Earlier this week, Shane Conklin, associate vice chancellor for facilities and campus services, emailed students with an update on parking, bus schedules and avoiding transportation delays.

**Update About On-campus Parking and Bus Schedules**

Full access to campus parking lots is available this week, but parking is expected to be crowded during peak times.

**Staffers Sela Moderates Briefing on Nutrition in the Human Microbiome for Congressional Fintech Bootcamp Boots Up Under the Direction of CICS’s Jim Flynn**

On Wednesday, July 28, David A. Sela, food science, moderated a briefing on nutrition in the human microbiome, which is the collection of beneficial microbes that are contained within the human body.

The briefing was part of a sectoral discussion that is taking place under the direction of Jim Flynn, assistant dean for research business development in the College of Information and Computer Sciences (CICS).

In a presentation to the Commonwealth Fintech Bootcamp cohort of the Commonwealth Fintech Bootcamp, they were welcomed by Jim Flynn, who provided an overview of the Commonwealth Fintech Bootcamp.

The first cohort of the Commonwealth Fintech Bootcamp, which is a year-long program for early-career professionals, is made up of industry leaders, entrepreneurs, students and researchers.

**Bassier a Total of $65,000 for their Respective Research Projects**

Candidate Ihsaan Bassier is the recipient of a $15,000 grant for his project, “Sectoral Bargaining and Spillovers in Monopsonistic Labour Markets.”

Doctoral candidate Arindrajit Dube and colleagues from Columbia University received a five-year $50,000 grant for their project, “Power and Dignity in Low-Wage Labor Markets: Evidence from Wal-Mart Workers.”

**Washington Center for Equitable Growth Awards UMass Economists Dube and Group**

Theresa Y. Austin, professor of multilingualism and multiliteracies, is one of 32 researchers from 23 colleges and universities across the United States.

Austin, who is also the director of the UMass Center for Multilingual Research and Development in the College of Education’s language, literacy and culture group, has received a five-year $500,000 grant from the National Science Foundation (NSF) to expand course-based undergraduate research experiences (CUREs) in linguistics research networks.

**Austin Selected to Participate in Language in The Human-Machine Era Research Challenge**

Institute of Standards and Technology Differential Privacy Temporal Map Ferrando, recently won $43,000 in prize money in the 2020 National Data Privacy Challenge.

Ferrando was selected from a cohort of 34 participants to participate in the Language in The Human-Machine Era Research Challenge.

**UMass Computer Science Student Team Wins $43,000 in National Data Privacy Challenge**

A team of students from the College of Information and Computer Sciences recently won $43,000 in prize money in the 2020 National Data Privacy Challenge.

The team, led by doctoral student Ryan McKenna and including graduate student Arjun Ramachandran, won $43,000 in prize money.

**Martha Patrick Named University Ombudsperson**

Martha Patrick has been named to head UMass Amherst's Ombuds Office.
