NCAA legislation requires that all student-athletes report any financial assistance other than that contained in institutionally-approved financial aid packages or that provided by parent(s) or legal guardian(s).

NCAA Division 1 Proposal No. 2010-69-B dictates that a student athlete may receive financial aid from a source outside the university, provided:

- (a) The scholarship is offered by an established and continuing scholarship program;
- (b) The recipient's choice of institution is not restricted by the scholarship program or donor;
- (c) There is no direct connection between the donor and the student athlete's institution; and
- (d) The financial aid is not provided by an outside sports team or organization that conducts a competitive sports program to an individual who is or has been a member of that team or organization.

I, \_\_\_\_\_, grant the University of Massachusetts Amherst and its representatives and agents permission to access all personal information, records and documentation related to all sources of financial aid that are not provided by my parents and/or legal guardians. I understand that failing to disclose all sources of financial aid may result in my ineligibility for intercollegiate competition.

Please complete this form for every outside aid award received in Fall, Spring, or Summer of the current academic year. Note that answers to these questions, or failing to provide answers to these questions, may result in a reduction or cancellation of institutional (including athletic), state, federal, and/or private aid.
