Laura B. Balzer, PhD

INTERESTS

- Causal inference and machine learning
- Development, evaluation, and implementation of data-driven solutions in Public Health and Medicine
- Design and analysis of cluster randomized and pragmatic trials
- Analyses with complex measurement, missingness, and dependence
- Applications: global health, infectious diseases, community health, epigenetics, behavioral medicine

APPOINTMENT

2017–Present **Assistant Professor of Biostatistics**, *University of Massachusetts, Amherst.*
Department of Biostatistics and Epidemiology
School of Public Health and Health Sciences

EDUCATION

- 2010–2015 **PhD in Biostatistics**, *University of California, Berkeley.*
- Design and analysis of cluster randomized trials with application to HIV prevention and treatment
 - Advisors: Drs. Maya Petersen and Mark van der Laan
 - Berkeley Fellowship: “Awarded to outstanding applicants to doctoral programs in all fields”
- 2008–2009 **MPhil in Computational Biology**, *University of Cambridge, UK.*
- Director’s Award for outstanding performance
 - Graduated 1st in the class
- 2004–2008 **BS in Applied Mathematics**, *University of Vermont.*
- Barry M. Goldwater Scholarship Award: “The most prestigious undergraduate scholarship in the natural sciences, mathematics and engineering in America”

POST-DOCTORAL TRAINING

- 2015–2017 **Post-Doctoral Fellow in Biostatistics**, *Harvard School of Public Health.*
- Advisor: Dr. Victor DeGruttola
 - Harnessing social network information to target interventions and to improve study designs for program and policy evaluation

HONORS & AWARDS

- 2019 **The Distinguished Young Alumna Award**, *Westover School*.
- 2017 **Postdoctoral Association 2017 Spring Travel Award**, *Harvard*.
- 2015 **Chin Long Chiang Biostatistics Student of the Year**, *UC Berkeley*.
 “For her innovative research in HIV prevention and treatment and her many contributions to the Biostatistics Program”
- 2015 **Travel Award: Infectious Disease Research Conference**, *NIAID/NIH*.
- 2014 **Gertrude M. Cox Scholarship**, *ASA*.
 “For outstanding academic achievement in the University of California, Berkeley biostatistics program, significant contributions to methodological development of causal inference for group-randomized studies, inter-departmental cooperation as demonstrated by effective collaborations with epidemiology students and faculty, and exceptional commitment to ambitious, engaging, creative and superherostudded teaching”
- 2014 **Causality in Statistics Education Award**, *ASA*.
 Jointly with Dr. Maya Petersen to the “individual or team that does the most to enhance the teaching and learning of causal inference in introductory statistics courses”
- 2014 **Travel Award: Joint Statistical Meetings**, *ASA - San Francisco Bay Area Chpt.*
- 2014 **Russel M. Grossman Endowment Award**, *UC Berkeley*.
- 2013 **3rd place poster**, *Society for Epidemiologic Research*.
- 2012 **Outstanding Graduate Student Instructor**, *UC Berkeley*.
- 2012 **2nd place at School of Public Health Research Symposium**, *UC Berkeley*.
- 2012 **Lois Rifkin Scholarship**, *UC Berkeley*.
- 2012–2014 **Division of Biostatistics stipend for scholastic achievements**, *UC Berkeley*.
- 2010–2012 **Berkeley Fellowship**, *UC Berkeley*.
 “Awarded to outstanding applicants to doctoral programs in all fields”
- 2009 **Director’s Award for outstanding performance**, *Cambridge, UK*.
 Equivalent to Distinction; Graduated 1st in the class
- 2008 **Summa Cum Laude**, *University of Vermont*.
 Graduated 1st in the class
- 2008 **Honors College Scholar**, *University of Vermont*.
- 2008 **Mathematics Senior Award**, *University of Vermont*.
- 2008 **Statistics Departmental Senior Award**, *University of Vermont*.
- 2007 **Sang Kil Nam Scholarship in Mathematics**, *University of Vermont*.
 “In recognition of the value of education as a path toward the betterment of mankind”
- 2007 **Barry M. Goldwater Scholarship Award**.
 “The most prestigious undergraduate scholarship in the natural sciences, mathematics and engineering in America”
- 2006 **Chemistry Rubber Company Award for excellence in Chemistry**, *University of Vermont*.
- 2004–2008 **Presidential Scholarship for academic excellence**, *University of Vermont*.

RESEARCH SUPPORT

ONGOING

- 2019–2020 **Strategic antiretroviral therapy & HIV testing for youth in rural Africa (SAT-URN)**
- Funding: NIH-NICHD UG3HD096915 (PI: Havlir)
 - Role: Sub-Award Principal Investigator
- 2018–2023 **Paternal preconception phthalates and reproductive health - potential mediation through sperm DNA methylation**
- Funding: NIH-NIEHS R01ES028298 (PI: Pilsner)
 - Role: Co-Investigator
- 2017–2021 **Simplified Isoniazid Preventive Therapy Strategy to Reduce TB Burden (SPIRIT)**
- Funding: NIH-NIAID R01AI125000 (PI: Havlir)
 - Role: Sub-Award Principal Investigator
- 2017–2020 **Leadership & Operations Center (LOC), AIDS Clinical Trials Group (ACTG); Sustainable East Africa Research in Community Health (SEARCH)**
- Funding: NIH-NIAID UM1AI068636 (PI: Currier; Havlir)
 - Role: Sub-Award Principal Investigator

COMPLETED

- 2015–2017 **Methods to Advance the HIV Prevention Research Agenda**
- Funding: NIH-NIAID R37AI051164 (PI: Degruittola)
 - Role: Post-Doctoral Scholar
- 2012–2017 **Reducing Failure-to-Initiate ART: Streamlined ART Start Strategy (START)**
- Funding: NIH-NIAID U01AI099959 (PI: Havlir)
 - Role: Co-Investigator
- 2010–2015 **Causal Inference Methods for Implementation Science**
- Funding: NIH-NIAID R01AI074345 (PI: van der Laan)
 - Role: Graduate student researcher

PROFESSIONAL EXPERIENCE

- 2015-2017 **Consultant**, *SEARCH Collaboration*, Makerere University - UC San Francisco.
- 2012–2014 **Graduate Student Instructor**, *UC Berkeley*, Berkeley, CA.
- 2010–2015 **Graduate Student Researcher**, *UC Berkeley*, Berkeley, CA.
- 2009–2010 **Biostatistician**, *UC Irvine*, Irvine, CA.
- 2009 **Computational Biologist**, *Human Epidemiology Nutrition Growth Ecology (HENGE)*, University of Cambridge, UK.
- 2006–2008 **Undergraduate Researcher**, *Interdisciplinary Training in Mathematics and Biology Program*, University of Vermont.

ACADEMIC INSTRUCTION

• Graduate Course - Introduction to Causal Inference

This course presents a general framework for causal inference: 1) clear statement of the scientific question, 2) definition of the causal model and parameter of interest, 3) assessment of identifiability - that is, linking the causal effect to a parameter estimable from the observed data distribution, 4) choice and implementation of estimators including parametric and semi-parametric methods, and 5) interpretation of findings. The estimation methods include G-computation, inverse probability of treatment weighting (IPTW), and targeted maximum likelihood estimation (TMLE) with Super Learning.

- *ASA's Causality in Statistics Education Award* - “individual or team that does the most to enhance the teaching and learning of causal inference in introductory statistics courses”
- Course materials available at www.ucbbiostat.com

2019 **Instructor** - *UMass Amherst* [3 credits]

- Overall course rating: pending

2018 **Instructor** - *UMass Amherst* [3 credits]

- Overall course rating: 4.6/5.0

2017 **Instructor** - *UMass Amherst* [3 credits]

- Overall course rating: 4.1/5.0

2013 **Graduate student instructor** - *UC Berkeley* [3 credits]

- Instructor rating: 6.83/7.00

2012 **Graduate student instructor** - *UC Berkeley* [3 credits]

- Instructor rating: 6.84/7.00

• Undergraduate Seminar - Data Science to Improve Public Health

Ever wonder why Data Scientists have been labeled the “sexiest job of the 21st Century”? Is Big Data really a revolution or simply hype? Why is it so hard to move from correlation to causation? Drawing on real examples from Public Health, this course will answer these and other pressing questions. Students will be introduced to a formal research framework, including specifying a well-defined scientific question, formally representing background knowledge and uncertainties, and finally answering their question using modern methods in machine learning and causal inference.

2018 **Instructor** - *UMass Amherst* [1 credit]

- Overall course rating: 4.0/4.0

- **Graduate Seminar - Hot Topics in Data Science**

The seminar will be a mixture of guest lectures from leading researchers in academia and industry (e.g. Google) as well as group presentations on top papers in Machine Learning and Causal Inference. We will also have dedicated time for professional development, including an interactive workshop “Professional and Multi-disciplinary Communication Strategies” and the discussion of tenure-track job searches.

2018 **Instructor** - *UMass Amherst* [1 credit]

- **Graduate Course - Causal Inference II**

This course covers more advanced causal topics: longitudinal causal models, identifiability, and estimation; direct and indirect effects; dynamic treatment regimes; stochastic interventions; community-based interventions; semi-parametric approaches to hierarchical data; and Collaborative targeted maximum likelihood estimation.

2014 **Instructor** - *UC Berkeley* [2 credits]

- Instructor rating: 7.00/7.00

2013 **Graduate student instructor** - *UC Berkeley* [2 credits]

- Instructor rating: 6.55/7.00

WORKSHOPS & SHORT COURSES

- **Introduction to Parametric and Semi-parametric Estimators for Causal Inference**

This workshop introduces the Causal Roadmap approach to scientific questions. The focus is on estimation with a simple substitution estimator (parametric G-computation), inverse probability of treatment weighting, and targeted maximum likelihood estimation with Super Learner. Using an applied example, participants implement these estimators in R.

2020 **Instructor** - *Society for Epidemiologic Research*, Boston, MA [Upcoming]

2019 **Instructor** - *NICHD*, Bethesda, MD

2018 **Instructor** - *SERtalks*, Boston, MA

Instructor - *Society for Epidemiologic Research*, Baltimore, MD

Instructor - *32nd New England Statistics Symposium*, Amherst, MA

Instructor - *SERtalks*, Los Angeles, CA

2017 **Instructor** - *SERtalks*, New York, NY

Instructor - *University of Utah, School of Medicine*, Salt Lake City, UT

2016 **Instructor** - *Society for Epidemiologic Research*, Miami, FL

Instructor - *SERtalks*, Minneapolis, MN

Instructor - *University of California, San Francisco*, San Francisco, CA

2015 **Instructor** - *Society for Epidemiologic Research*, Denver, CO

- **Introduction to causal inference for multiple time point (longitudinal) exposures**

This workshop applies the Causal Roadmap to longitudinal data structures, including survival outcomes subject to censoring, and to the joint causal effects of multiple interventions, including cumulative effects of treatment over time and controlled direct effects. We will cover longitudinal causal models, identification in the presence of time-dependent confounding, and estimation of joint treatment effects using G-computation, inverse probability weighting, and targeted maximum likelihood estimators.

- 2020 **Instructor** - *Society for Epidemiologic Research*, Boston, MA [Upcoming]
 2019 **Instructor** - *Society for Epidemiologic Research*, Minneapolis, MN
 2017 **Instructor** - *X Congresso Brasileiro de Epidemiologia*, Florianópolis, Brazil

• **Big data, machine learning techniques to investigate health effects in environmental health studies**

This course will present key methodological challenges that arise in environmental health and provide recent methods that can be used to deal with these challenges. The focus is on modern solutions to multiple testing, model misspecification, and causal inference as applied to environmental health data, with a focus on assessing health effects of chemical mixtures. Participants will gain both a theoretical understanding as well as practical experience with a hands-on session using R software.

- 2018 **Instructor** - *International Society of Exposure Science & the International Society for Environmental Epidemiology (ISES-ISEE)*, Ottawa, Canada

18. University of Vermont - Statistics Colloquium: “Estimating the Impact of Community-Based Interventions: the SEARCH Trial and HIV Prevention in East Africa”, Oct2014.

■ GUEST LECTURES

1. University of California, Berkeley - Methods in Social Epidemiology (Spr2019): “Introduction to Targeted Learning”.
2. University of Massachusetts, Amherst - Analysis of Categorical Data in Public Health (Fa2018): “Estimating Effects in Cluster Randomized Trials: the SEARCH Trial in Rural Uganda & Kenya”.
3. University of Massachusetts, Amherst - Advanced Epidemiological Methods (Spr2018): “Integrating Causal Modeling and Statistical Estimation”.
4. University of California, Berkeley - Methods in Social Epidemiology (Spr2018): “Introduction to Targeted Learning”.
5. Mount Holyoke College - Topics in Biostatistics (Spr2018): “Targeted maximum likelihood with Super Learning to evaluate progress towards HIV care cascade goals: an example from the SEARCH “test and treat” study”.
6. University of California, Berkeley - Methods in Social Epidemiology (Spr2017): “Introduction to Targeted Learning”.
7. Harvard School of Public Health - Methods I (Fa2016): “Introduction to Targeted Learning”.
8. University of California, Berkeley - Methods in Social Epidemiology (Spr2016): “Introduction to Targeted Learning”.
9. Harvard School of Public Health - Statistical Inference I (Spr2016): “Introduction to Targeted Learning”.
10. Harvard School of Public Health - Quantitative Group for Research on Infectious Diseases (Fa2015): “Introduction to Longitudinal Causal Models, Marginal Structural Models and Longitudinal IPTW”.

11. Harvard School of Public Health - Quantitative Group for Research on Infectious Diseases (Fa2015): "Introduction to Targeted Learning".
12. University of California, Berkeley - Methods in Social Epidemiology (Spr2015): "Introduction to Targeted Learning".
13. University of California, Berkeley - Introduction to Causal Inference (Fa2014): "Estimating the Impact of Community-Based Interventions: the SEARCH Trial and HIV Prevention in East Africa".
14. University of California, Berkeley - Methods in Social Epidemiology (Spr2014): "Introduction to Targeted Learning", 2014.
15. University of California, Berkeley - Epidemiologic Methods II (Fa2013): "Designing the SEARCH trial: Ph250b in Practice".
16. University of California, Berkeley - Introduction to Causal Inference (Fa2013): "Adventures in Linking the SCM and the Observed Data".
17. University of California, Berkeley - Methods in Social Epidemiology (Spr2013): "Introduction to Targeted Learning".
18. University of California, Berkeley - Causal Consulting (Fa2012): "Do-Si-Do: A Two-Stage Design and TMLE for Estimating Causal Effects of Community-Based Interventions".
19. University of California, Berkeley - Special Topics in Biostatistics: Adaptive Designs (Fa2012): "Pair Matching in Randomized Trials: Fairy Tales & Super Heroes".
20. University of California, Berkeley - Methods in Social Epidemiology (Spr2012): "Introduction to Targeted Learning".

MENTORSHIP

Current **Alejandra Benitez**, *Doctoral committee member*, Biostatistics, External - UC Berkeley.
Joshua Freeman, *Doctoral committee member*, Epidemiology.
Gabriel Reif, *Doctoral committee member*, Education.
Sam Witty, *Synthesis project advisor*, Computer Science.

Past **Emily Peterson**, *Doctoral committee member*, Biostatistics, Dec2019.
 Post-doctoral fellow at Emory University

Gregory Guranich, *Master's committee member*, Biostatistics, Aug2019.
 Researcher at Alkema Lab

Stephen Lauer, *Doctoral Co-Advisor*, Biostatistics, Feb2019.
 Post-doctoral fellow at Johns Hopkins University

Caroline Kusiak, *Master's committee member*, Biostatistics, Sept2018.
 Verily (Google)

Julianne Higgins, *William Lee Science Impact Program (Lee-SIP) Scholar & Commonwealth Honors College Honors Research Assistant Fellowship*, Mathematics (Undergraduate).

DEPARTMENTAL & UNIVERSITY SERVICE

2019-2020 **Director**, *UMass Causality Lab*.

- Chair**, *Graduate Affairs Committee*.
- Committee member**, *Curriculum*.
- Committee member**, *MS degree development & recruitment*.
- Academic advisor**, *Two PhD students; one MS student, + co-advising seven MS students*.
- 2018–2019 **Founder & Director**, *UMass Causality Lab*.
- Committee member**, *Departmental Personnel*.
- Committee member**, *Curriculum*.
- Academic advisor**, *One PhD student; two MS students*.
- 2017–2018 **Committee member**, *Admissions*.
- Committee member**, *Student outreach*.
- Co-organizer**, *Departmental seminar series*.
- Poster judge**, *21st Annual SPHHS Research Day*.
- Abstract judge**, *Delta Omega Public Health Honorary Society*.
- Academic advisor**, *Two MS students*.

EXTERNAL SERVICE

- 2019–2020 **Representative**, *Universal Test & Treat Trials Consortium (UT3C)*, Bordeaux-London-Boston-San Francisco.
- SER Champion**, *Society of Epidemiologic Research*, International.
- 2018–2019 **Representative**, *Universal Test & Treat Trials Consortium (UT3C)*, Bordeaux-London-Boston-San Francisco.
- Local organizing committee**, *StatFest 2018*, ASA & Amherst College.
- SER Champion**, *Society of Epidemiologic Research*, International.
- Invited speaker**, *Career panel*, Stoneleigh-Burnham.
- Poster judge**, *Society of Epidemiologic Research Conference*, Minneapolis, MN.
- Abstract review**, *Society of Epidemiologic Research Conference*, Minneapolis, MN.
- 2017–2018 **Representative**, *Universal Test & Treat Trials Consortium (UT3C)*, Bordeaux-London-Boston-San Francisco.
- Board member**, *Honors College Advisory Board*, University of Vermont.
- Invited session organizer**, *New England Statistics Symposium*, Amherst, MA.
- Poster judge**, *New England Statistics Symposium*, Amherst, MA.
- Abstract review**, *Society of Epidemiologic Research Conference*, Baltimore, MD.
- Poster judge**, *Society of Epidemiologic Research Conference*, Baltimore, MD.
- 2016–2017 **Organizer**, *Quantitative Group for Research on Infectious Diseases*, Harvard T.H. Chan School of Public Health.
- Representative**, *Universal Test & Treat Trials Consortium (UT3C)*, Bordeaux-London-Boston-San Francisco.

- Board member**, *Honors College Advisory Board*, University of Vermont.
Poster judge, *Society of Epidemiologic Research Conference*, Seattle, WA.
- 2015–2016 **Organizer**, *Conference on Causal Inference with Highly Dependent Data in Communicable Disease Research*, Cambridge, MA.
Representative, *Universal Test & Treat Trials Consortium (UT3C)*, Bordeaux-London-Boston-San Francisco.
Board member, *Honors College Advisory Board*, University of Vermont.
Invited session organizer, *Conference on Causal Inference with Highly Dependent Data in Communicable Disease Research*, Cambridge, MA.
Mentored poster chats, *Society of Epidemiologic Research Conference*, Miami, FL.
Abstract review, *Society of Epidemiologic Research Conference*, Miami, FL.
- 2014–2015 **Member**, *Tenure-track Biostatistics search committee*, UC Berkeley.
Board member, *Honors College Advisory Board*, University of Vermont.
Member, *School of Public Health Graduate Recruitment & Diversity Services*, UC Berkeley.
Invited session organizer, *Atlantic Causal Inference Conference*, Philadelphia, PA.
Representative, *Honors College Alumni Panel*, University of Vermont.
- 2013–2014 **Member**, *School of Public Health Graduate Recruitment & Diversity Services*, UC Berkeley.
- 2012–2013 **Member**, *School of Public Health Graduate Recruitment & Diversity Services*, UC Berkeley.
- 2011–2012 **Elected representative**, *School of Public Health Student Government*, UC Berkeley.

2012–Present American Statistical Association
2012–2015 Western North American Region of the International Biometric Society
2008 Phi Beta Kappa

SELECTED CONFERENCE & SYMPOSIUM PRESENTATIONS (*denotes mentee)

- M.D. Hickey, J. Ayieko, D. Kwarisiima, F.J. Opel, A.Owaraganise, **L. Balzer**, *et al.* Improved time in care and viral suppression with streamlined care in the SEARCH Study.
2020 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Invited Speaker)
[Upcoming]
- L. Brown, Y. Chen, **L. Balzer**, G. Chamie, J. Ayieko, *et al.* Using social networks to reach individuals with low CD4 at high risk of death.
2020 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Poster)
[Upcoming]
- S.B. Puryear, A. Mucunguzi, **L. Balzer**, J. Kironde, J.A. Hahn, *et al.* Alcohol use is associated with incident TB infection in HIV+ and HIV- Ugandan adults.
2020 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Poster)
[Upcoming]
- Y. Chen, G. Chamie, D. Kwarisiima, **L. Balzer**, J. Kabami, *et al.* HIV+ persons in rural Uganda with fewer social connections have lower HIV suppression.
2020 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Poster)
[Upcoming]
- C.S. Camlin, E.D. Charlebois, M.L. Petersen, **L. Balzer**, T.B. Neilands, *et al.* Metrics of mobility by sex are associated with HIV incidence in rural Kenya & Uganda.
2020 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Poster)
[Upcoming]

6. S.B. Puryear, D. Kwarisiima, J. Ayieko, J.A. Hahn, A. Mucunguzi, S. Ogachi, **L. Balzer**, *et al.* SEARCH Test & Treat intervention improves viral suppression among hazardous drinkers.
2020 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Poster)
[Upcoming]
7. **L. Balzer**. Far from MCAR: Machine learning to flexibly adjust for missing data.
2019 *Dean's Symposium "Statistics and the Life Sciences: Creating a Healthier World"*, Boston University (Invited Speaker)
8. **L. Balzer**. Machine Learning for Causal Inference.
2019 *Kidney Week 2019*, Washington, D.C. (Invited Speaker)
9. C. Marquez, Y. Chen, M. Atukunda, J. Kironde, C. Chamie, **L. Balzer**, *et al.* Social network characteristics are associated with prevalent tuberculosis infection among people living with and without HIV in nine communities in rural Uganda.
2019 *23rd International AIDS Conference*, Mexico City, Mexico (Invited Talk)
10. C. Koss, J. Ayieko, D. Kwarisiima, M. Atukunda, **L. Balzer**, *et al.* PrEP uptake, engagement, and adherence following population-wide HIV testing in rural Kenya and Uganda in the SEARCH Study.
2019 *23rd International AIDS Conference*, Mexico City, Mexico (Poster)
11. S. Puryear, J. Ayieko, D. Kwarisiima, J. Hahn, **L. Balzer**, *et al.* Increased levels of current alcohol use are associated with worse HIV care cascade outcomes among HIV-positive adults in rural Kenya and Uganda in the SEARCH Trial.
2019 *23rd International AIDS Conference*, Mexico City, Mexico (Poster)
12. **L. Balzer**. Biologically or socially transmitted outcomes? Be (un)certain of your uncertainty!
2019 *Society for Epidemiologic Research*, Minneapolis, MN (Invited Speaker)
13. **L. Balzer**. Super Learning vs. traditional approaches for population-based HIV risk assessment in rural East Africa.
2019 *Society for Epidemiologic Research*, Minneapolis, MN (Invited Speaker)
14. **L. Balzer**. An overview of Big Data: Promises and potential pitfalls.
2019 *The Association for Research in Vision and Ophthalmology (ARVO) Conference 2019*, Vancouver, Canada (Invited Speaker)
15. **L. Balzer**. Data-adaptive estimation to control for missing data, to increase efficiency, and for risk prediction in the SEARCH Study
2019 *NIAID Conference: Statistical challenges & opportunities in HIV/AIDS research in the era of getting-to-zero HIV infections*, Philadelphia, PA (Invited Speaker)
16. J. Kabami*, H. Saddiki* , J. Ayieko, D. Kwarisiima, A. Mucunguzi, E. Charlebois, T. Clark, E. Bukusi, C. Cohen, P. Musoke, M. Petersen, D. Havlir, M. Kamya, **L. Balzer**, G. Chamie. SEARCH intervention increases viral suppression among pregnant and postpartum women.
2019 *Conference on Retroviruses and Opportunistic Infections*, Seattle, WA (Poster)

17. G. Chamie, N. Sang, D. Kwarisiima, J. Kabami, K. Kadede, I. Bagala, A. Mucunguzi, T. Clark, **L. Balzer**, *et al.* Yield of HIV testing and re-engagement of key populations in Uganda and Kenya.
2019 *Conference on Retroviruses and Opportunistic Infections*, Seattle, WA (Poster)
18. L. Brown, **L. Balzer**, J. Kabami, D. Kwarisiima, N. Sang, J. Ayieko, *et al.* Social networks and tie strength predict outcomes of HIV+ youth in SEARCH trial.
2019 *Conference on Retroviruses and Opportunistic Infections*, Seattle, WA (Poster)
19. H. Thirumurthy A. Jakubowski, Y. He, J. Kabami, D. Kwarisiima, N. Sang **L. Balzer**, *et al.* Socioeconomic impacts of universal antiretroviral therapy in the SEARCH trial.
2019 *Conference on Retroviruses and Opportunistic Infections*, Seattle, WA (Poster)
20. D. Kwarisiima, Y. Mwinike, J. Ayieko, A. Mucunguzi, W. Olilo, **L. Balzer**, *et al.* Hypertension control in integrated HIV/NCD clinics in the SEARCH study.
2019 *Conference on Retroviruses and Opportunistic Infections*, Seattle, WA (Poster)
21. M. Kanya, M.L. Petersen, D. Kwarisiima, J. Ayieko, N. Sang, J. Kabami, T.D. Clark, E.D. Charlebois, **L. Balzer**, *et al.* SEARCH intervention reduces mortality at a population-level in men with low CD4 count.
2019 *Conference on Retroviruses and Opportunistic Infections*, Seattle, WA (Invited Talk)
22. **L. Balzer**. Pragmatic Trials To Bridge Efficacy to Effectiveness.
2018 *HIV prevention efficacy trials design of the future (HVTN Conference)*, Seattle, WA (Invited Speaker)
