Laura B. Balzer, PhD

INTERESTS

- Causal inference and supervised machine learning
- Development, evaluation, and implementation of data-driven solutions in Public Health and Medicine
- Design and analysis of cluster randomized and pragmatic trials
- Analyses with complex measurement, missingness, and dependence
- Applications: global health, infectious diseases, community health

APPOINTMENT

2017–Present **Assistant Professor of Biostatistics**, *University of Massachusetts, Amherst.*
Department of Biostatistics and Epidemiology
School of Public Health and Health Sciences

EDUCATION

- 2010–2015 **PhD in Biostatistics**, *University of California, Berkeley.*
- Design and analysis of cluster randomized trials with application to HIV prevention and treatment
 - Advisors: Drs. Maya Petersen and Mark van der Laan
 - Berkeley Fellowship: “Awarded to outstanding applicants to doctoral programs in all fields”
- 2008–2009 **MPhil in Computational Biology**, *University of Cambridge, UK.*
- Director’s Award for outstanding performance
 - Graduated 1st in the class
- 2004–2008 **BS in Applied Mathematics**, *University of Vermont.*
- Barry M. Goldwater Scholarship Award: “The most prestigious undergraduate scholarship in the natural sciences, mathematics and engineering in America”

POST-DOCTORAL TRAINING

- 2015–2017 **Post-Doctoral Fellow in Biostatistics**, *Harvard School of Public Health.*
- Advisor: Dr. Victor DeGruttola
 - Harnessing social network information to target interventions and to improve study designs for program and policy evaluation

HONORS & AWARDS

- 2021 ***American Journal of Epidemiology (AJE) 2020 Article of the Year, AJE & Society for Epidemiologic Research.***
- 2021 **UMass Amherst Spotlight Scholar, UMass Amherst.**
- 2019 **The Distinguished Young Alumna Award, Westover School.**
- 2017 **Postdoctoral Association 2017 Spring Travel Award, Harvard.**
- 2015 **Chin Long Chiang Biostatistics Student of the Year, UC Berkeley.**
 “For her innovative research in HIV prevention and treatment and her many contributions to the Biostatistics Program”
- 2015 **Travel Award: Infectious Disease Research Conference, NIAID/NIH.**
- 2014 **Gertrude M. Cox Scholarship, ASA.**
 “For outstanding academic achievement in the University of California, Berkeley biostatistics program, significant contributions to methodological development of causal inference for group-randomized studies, inter-departmental cooperation as demonstrated by effective collaborations with epidemiology students and faculty, and exceptional commitment to ambitious, engaging, creative and superherostudied teaching”
- 2014 **Causality in Statistics Education Award, ASA.**
 Jointly with Dr. Maya Petersen to the “individual or team that does the most to enhance the teaching and learning of causal inference in introductory statistics courses”
- 2014 **Travel Award: Joint Statistical Meetings, ASA - San Francisco Bay Area Chpt.**
- 2014 **Russel M. Grossman Endowment Award, UC Berkeley.**
- 2013 **3rd place poster, Society for Epidemiologic Research.**
- 2012 **Outstanding Graduate Student Instructor, UC Berkeley.**
- 2012 **2nd place at School of Public Health Research Symposium, UC Berkeley.**
- 2012 **Lois Rifkin Scholarship, UC Berkeley.**
- 2012–2014 **Division of Biostatistics stipend for scholastic achievements, UC Berkeley.**
- 2010–2012 **Berkeley Fellowship, UC Berkeley.**
 “Awarded to outstanding applicants to doctoral programs in all fields”
- 2009 **Director’s Award for outstanding performance, Cambridge, UK.**
 Equivalent to Distinction; Graduated 1st in the class
- 2008 ***Summa Cum Laude*, University of Vermont.**
 Graduated 1st in the class
- 2008 **Honors College Scholar, University of Vermont.**
- 2008 **Mathematics Senior Award, University of Vermont.**
- 2008 **Statistics Departmental Senior Award, University of Vermont.**
- 2007 **Sang Kil Nam Scholarship in Mathematics, University of Vermont.**
 “In recognition of the value of education as a path toward the betterment of mankind”
- 2007 **Barry M. Goldwater Scholarship Award.**
 “The most prestigious undergraduate scholarship in the natural sciences, mathematics and engineering in America”
- 2006 **Chemistry Rubber Company Award, University of Vermont.**
- 2004–2008 **Presidential Scholarship for academic excellence, University of Vermont.**

RESEARCH SUPPORT

ONGOING

- 2020–2025 **A Multisectoral Strategy to Address Persistent Drivers of the HIV Epidemic in East Africa (SEARCH-Sapphire)**
- Funding: NIH-NIAID U01AI150510 (MPIs: Petersen, Havlir, Kanya)
 - Role: Sub-Award Principal Investigator
- 2018–2023 **Strategic antiretroviral therapy and HIV testing for youth in rural Africa (SAT-URN)**
- Funding: NIH-NICHD UG3HD096915 (PI: Havlir)
 - Role: Sub-Award Principal Investigator
- 2018–2023 **Paternal preconception phthalates and reproductive health - potential mediation through sperm DNA methylation**
- Funding: NIH-NIEHS R01ES028298 (PI: Pilsner)
 - Role: Co-Investigator
- 2016–2022 **Simplified Isoniazid Preventive Therapy Strategy to Reduce TB Burden (SPIRIT)**
- Funding: NIH-NIAID R01AI125000 (PI: Havlir)
 - Role: Sub-Award Principal Investigator

COMPLETED

- 2017–2020 **Leadership & Operations Center (LOC), AIDS Clinical Trials Group (ACTG); Sustainable East Africa Research in Community Health (SEARCH)**
- Funding: NIH-NIAID UM1AI068636 (PI: Currier; Havlir)
 - Role: Sub-Award Principal Investigator
- 2015–2017 **Methods to Advance the HIV Prevention Research Agenda**
- Funding: NIH-NIAID R37AI051164 (PI: Degruittola)
 - Role: Post-Doctoral Scholar
- 2012–2017 **Reducing Failure-to-Initiate ART: Streamlined ART Start Strategy (START)**
- Funding: NIH-NIAID U01AI099959 (PI: Havlir)
 - Role: Co-Investigator
- 2010–2015 **Causal Inference Methods for Implementation Science**
- Funding: NIH-NIAID R01AI074345 (PI: van der Laan)
 - Role: Graduate student researcher

OTHER PROFESSIONAL EXPERIENCE

- 2015-2017 **Consultant**, *SEARCH Collaboration*, Makerere University - UC San Francisco.
- 2012–2014 **Graduate Student Instructor**, *UC Berkeley*, Berkeley, CA.
- 2010–2015 **Graduate Student Researcher**, *UC Berkeley*, Berkeley, CA.

2009–2010 **Biostatistician**, *UC Irvine*, Irvine, CA.

2009 **Computational Biologist**, *Human Epidemiology Nutrition Growth Ecology (HENGE)*, University of Cambridge, UK.

- **Far-From-MCAR**: R code for a paper entitled “Far from MCAR: obtaining population-level estimates of HIV viral suppression” (Last update: Feb 25, 2020)
- **HierarchicalTMLE**: R code to generate simulated data and implement the hierarchical TMLEs (Last update: Oct 17, 2019)
- **SEARCH_Analysis_Adults**: R code for evaluating adult HIV incidence, health, & implementation outcomes for the first phase of the SEARCH Study (Last update: June 25, 2019)

- **ISES_ISEE_Workshop**: R code for workshop entitled “Introduction to Double Robust Estimation for Causal Inference” (Last update: Oct 2, 2018)
- R code for a paper entitled “Stacked Generalization: An Introduction to SuperLearning” by Naimi and Balzer. Available at <https://github.com/ainaimi/SuperLearnerIntro>
- **TMLE-for-SATE**: R code and simulations to illustrate estimation and inference for the sample average treatment effect (SATE) in trials with and without pair-matching. (Last update: Apr 17, 2017)
- **AdaptivePrespecification**: R code and simulations to illustrate estimation and inference using a pre-specified, yet data-adaptive approach, in randomized trials. (Last update: Apr 17, 2017)
- **On-Generalizability**: R code to implement simulations in the Invited Commentary: ‘All generalizations are dangerous, even this one.’- Dumas by Balzer (Last update: Mar 12, 2017)
- **Estimating-90-90-90-in-SEARCH**: R code to evaluate the UNAIDS 90/90/90 Coverage in the SEARCH Study. (Last update: Feb 25, 2017)

ACADEMIC INSTRUCTION - Limited to last 5 years

• Graduate Course - Introduction to Causal Inference

This course presents a general framework for causal inference: 1) clear statement of the scientific question, 2) definition of the causal model and parameter of interest, 3) assessment of identifiability - that is, linking the causal effect to a parameter estimable from the observed data distribution, 4) choice and implementation of estimators including parametric and semi-parametric methods, and 5) interpretation of findings. The estimation methods include G-computation, inverse probability of treatment weighting (IPTW), and targeted maximum likelihood estimation (TMLE) with Super Learning.

- *ASA’s Causality in Statistics Education Award* - “individual or team that does the most to enhance the teaching and learning of causal inference in introductory statistics courses”
- Course materials available at www.ucbbiostat.com

2021 **Instructor** - *UMass Amherst* [3 credits]
[Upcoming]

2019 **Instructor** - *UMass Amherst* [3 credits]
• Overall course rating: 4.4/5.0

2018 **Instructor** - *UMass Amherst* [3 credits]
• Overall course rating: 4.6/5.0

2017 **Instructor** - *UMass Amherst* [3 credits]
• Overall course rating: 4.1/5.0

• Graduate Experimental Seminar - Ethical Challenges in Data Science

This seminar was created in direct response to our students’ desire to learn more about how scientific ethics - specifically those related to race, ethnicity, and gender - applied to the work of Biostatisticians and Epidemiologists. The course covered general concepts, such as responsible conduct of research, as well as more tailored topics, such as algorithmic fairness and vaccine equity.

2020 **Instructor** - *UMass Amherst* [1 credit]

• Graduate Experimental Course - Targeted Learning in Biomedical Big Data

The course aims to actively learn and apply the core principles of the Targeted Learning methodology, which (1) generalizes machine learning to any estimand of interest; (2) obtains an optimal estimator of

the given estimand, grounded in theory; (3) integrates the state-of-the-art ensemble machine learning techniques; and (4) provides formal statistical inference in terms of confidence intervals and testing of specified null hypotheses of interest.

2019 **Instructor** - *UMass Amherst* [3 credits]

- **Undergraduate Experimental Seminar - Data Science to Improve Public Health**

Ever wonder why Data Scientists have been labeled the “sexiest job of the 21st Century”? Is Big Data really a revolution or simply hype? Why is it so hard to move from correlation to causation? Drawing on real examples from Public Health, this course will answer these and other pressing questions. Students will be introduced to a formal research framework, including specifying a well-defined scientific question, formally representing background knowledge and uncertainties, and finally answering their question using modern methods in machine learning and causal inference.

2018 **Instructor** - *UMass Amherst* [1 credit]

- **Graduate Experimental Seminar - Hot Topics in Data Science**

The seminar will be a mixture of guest lectures from leading researchers in academia and industry (e.g., Google) as well as group presentations on top papers in Machine Learning and Causal Inference. We will also have dedicated time for professional development, including an interactive workshop “Professional and Multi-disciplinary Communication Strategies” and the discussion of tenure-track job searches.

2018 **Instructor** - *UMass Amherst* [1 credit]

WORKSHOPS & SHORT COURSES

- **Introduction to Parametric and Semi-parametric Estimators for Causal Inference**

This workshop will introduce participants to the Causal Roadmap for research questions. The focus is on estimation with parametric G-computation, inverse probability of weighting, and targeted maximum likelihood estimation (TMLE) with Super Learner.

2021 **Instructor** - *Society for Epidemiologic Research*, San Diego, CA

2020 **Instructor** - *Society for Epidemiologic Research*, Boston, MA

2019 **Instructor** - *NICHD*, Bethesda, MD

2018 **Instructor** - *SERtalks*, Boston, MA

Instructor - *ISES-ISEE*, Ottawa, Canada

Instructor - *Society for Epidemiologic Research*, Baltimore, MD

Instructor - *32nd New England Statistics Symposium*, Amherst, MA

Instructor - *SERtalks*, Los Angeles, CA

2017 **Instructor** - *SERtalks*, New York, NY

Instructor - *University of Utah, School of Medicine*, Salt Lake City, UT

2016 **Instructor** - *Society for Epidemiologic Research*, Miami, FL

Instructor - *SERtalks*, Minneapolis, MN

Instructor - *University of California, San Francisco*, San Francisco, CA

2015 **Instructor** - *Society for Epidemiologic Research*, Denver, CO

- **Causal inference for multiple time point (longitudinal) exposures**

This workshop applies the Causal Roadmap to estimate the causal effects with multiple intervention variables, such as the cumulative effect of an exposure over time and the effects on survival-type out-

comes with right-censoring. We will cover longitudinal causal models, identification in the presence of time-dependent confounding, and estimation of joint treatment effects using G-computation, inverse probability weighting (IPW), and targeted maximum likelihood estimation (TMLE) with Super Learner.

- 2021 **Instructor** - *Joint Statistical Meetings*, Seattle, WA [Post-poned due to COVID19]
- Instructor** - *Society for Epidemiologic Research*, San Diego, CA
- Instructor** - *American Statistical Association*, Virtual
- 2020 **Instructor** - *Society for Epidemiologic Research*, Boston, MA
- 2019 **Instructor** - *Society for Epidemiologic Research*, Minneapolis, MN
- 2017 **Instructor** - *X Congresso Brasileiro de Epidemiologia*, Florianópolis, Brazil

█ GUEST LECTURES - Limited to last 5 years

- Spr2021 **UMass Amherst** - Topics in Biostatistics & Data Science in Public Health
- Spr2020 **Amherst College** - Epidemiology and Causal Inference
- UC Berkeley** - Methods in Social Epidemiology
- Spr2019 **UC Berkeley** - Methods in Social Epidemiology
- Fa2018 **UMass Amherst** - Analysis of Categorical Data in Public Health
- Spr2018 **UMass Amherst** - Advanced Epidemiological Methods
- UC Berkeley** - Methods in Social Epidemiology
- Mount Holyoke College** - Topics in Biostatistics
- Spr2017 **UC Berkeley** - Methods in Social Epidemiology
- Fa2016 **Harvard School of Public Health** - Methods I
- UC Berkeley** - Methods in Social Epidemiology
- Spr2016 **Harvard School of Public Health** - Statistical Inference I

█ PHD & MS DISSERTATION COMMITTEES

Doctoral Committee Chair

- Current **Joshua Nugent**, *Biostatistics*, May 2022.
- Past **Hachem Saddiki**, *Biostatistics*, Sept 2021, Post-doc at Mount Sinai Hospital.
- Guandong Yang**, *Biostatistics*, Sept 2021, Senior data scientist at Traveler's insurance.
- Stephen Lauer**, *Biostatistics*, Feb 2019, Director of data science at Certilytics.
(Co-advised with Dr. Nicholas Reich)

Doctoral Committee Member

- Current **Teah Snyder**, *Epidemiology*, Sept 2022.
- Gabriel Reif**, *Education*, May 2022.
- Herb Susmann**, *Biostatistics*, May 2022, Co-mentor on their Chateaubriand Fellowship.
- Jon Moyer**, *Biostatistics*, Feb 2022.
- Kate Hoff-Shutta**, *Biostatistics*, Feb 2022.

- Past **Joshua Freeman**, *Epidemiology*, Sept 2021, Post-doc at the NIH.
Graham (Casey) Gibson, *Biostatistics*, Sept 2021, Post-doc at University of Texas Austin.
Alejandra Benitez, *Biostatistics (UC Berkeley)*, June 2020, Statistical scientist at GenenTech.
Emily Peterson, *Biostatistics*, Dec 2019, Post-doc at Emory University.

Masters Committee Chair

- Past **Angus Wong**, *Biostatistics*, May 2021.

Masters Committee Member

- Past **Gregory Guranich**, *Biostatistics*, Aug 2019, Researcher at Alkema Lab.
Caroline Kusiak, *Biostatistics*, Sept 2018, Verily (Google).

Other

- Past **Sam Witty**, *Computer Science - Synthesis project advisor*, Oct 2020.
Julianne Higgins, *Mathematics (Undergraduate) - Advisor on their Lee-SIP scholarship & CHC honors research assistant fellowship*, May 2019.

MENTORING OF EARLY CAREER INVESTIGATORS

I am deeply committed to mentoring early stage investigators, especially those working in Medicine and Public Health. Below is a list of persons for whom I serve or have served as their primary statistical mentor. I provide in-depth consultations on their research projects, including, but not limited to, the study design, the statistical analyses, as well as the drafting, editing, submission, and response to reviewers for manuscripts and scientific grants.

- Current **James Ayieko, MBChB PhD**, *Kenya Medical Research Institute, Nairobi, Kenya*.
Jane Kabami, MPH, *Makerere University College of Health Sciences, Kampala, Uganda*.
Carina Marquez, MD, *UC San Francisco, USA*.
Catherine Koss, MD, *UC San Francisco, USA*.
Mathew Hickey, MD, *UC San Francisco, USA*.
James Peng, MS, *UC San Francisco, USA*.
Sarah Puryear, MD, *UC San Francisco, USA*, Co-mentor on her K23: Understanding alcohol misuse & its impact on viral suppression in youth living with HIV in East Africa.
Carrie Nobles, PhD, *UMass Amherst, USA*, Co-mentor on her K01 application: Exposure to Ambient Air Pollution and Temperature During Spermatogenesis (Under review).
- Past **Anthony Muiru, MD**, *UC San Francisco, USA*.
Prashant Kotwani, MD, *UC San Francisco, USA*.
Yiqun Chen, *UC Berkeley, USA*.

———— DIVERSITY, EQUITY, & INCLUSION STATEMENT

I am deeply committed to promoting diversity, equity, and inclusion in all my activities.

- In Academic Year 2020-2021, I developed and taught a novel graduate seminar, entitled “Ethical Challenges in Data Science”. This seminar was created in direct response to our students’ desire to learn more about how scientific ethics - specifically those related to race, ethnicity, and gender - applied to the work of Biostatisticians and Epidemiologists.
- More generally, my teaching aims to embrace student diversity and promote inclusion. My courses and workshops attract students from a wide variety of backgrounds, including Public Health, Computer Science, Sociology, Statistics, and Medicine. This presents an interesting challenge - how to teach statistical concepts clearly and non-technically, yet rigorously. I embrace this diversity by presenting concepts at several levels and providing references to more advanced topics. I also encourage cross-discipline collaborations through the computing labs, discussion assignments, and team-based projects. In turn, these collaborations fuel innovation in both methods and applied research.
- In my research, I am also committed to supporting and mentoring scholars from resource-limited settings. This includes serving as Statistician on their projects and mentoring them through manuscript drafting, editing, submission, and response to reviewers. More than half of my peer-reviewed publications (30/56 to date) have been co-authored by at least one researcher from Sub-Saharan Africa.
- I am a mentor in the National Alliance for Doctoral Studies in the Mathematical Sciences!. Less formally, I make myself readily available for meetings to support women in STEM at UMass and beyond.

———— SERVICE TO THE PROFESSION

Ongoing

- 2020-present **Speed Mentoring**, *Society of Epidemiologic Research Conference*.
- 2019-present **Mentor**, *National Alliance for Doctoral Studies in the Mathematical Sciences!*.
- 2019-present **Education Committee**, *Society of Epidemiologic Research*.
- 2018-present **SER Champion**, *Society of Epidemiologic Research*.
- 2017-present **Representative**, *Universal Test & Treat Trials Consortium (UT3C)*.
- 2015-present **Poster judge**, *Society of Epidemiologic Research Conference*.
- 2015-present **Abstract review**, *Society of Epidemiologic Research Conference*.

Past

- 2021 **Speed Mentoring**, *Voices of Data Science Conference (UMass Amherst)*.
- 2018–2019 **Local organizing committee**, *StatFest 2018*.
- 2018 **Invited speaker**, *Career panel at Stoneleigh-Burnham*.
- 2018 **Poster judge**, *New England Statistics Symposium*.
- 2015-2017 **Organizer**, *Quantitative Group for Research on Infectious Diseases*.
- 2014-2018 **Board member**, *Honors College Advisory Board for the University of Vermont*.
- 2014–2015 **Member**, *Tenure-track Biostatistics search committee at UC Berkeley*.
- 2014 **Invited speaker**, *Honors College Alumni Panel at the University of Vermont*.
- 2012–2015 **Member**, *School of Public Health Graduate Recruitment & Diversity Services at UC Berkeley*.

REVIEW OF SCIENTIFIC GRANTS, REPORTS, & JOURNALS

- Grants & Reports:** Patient-Centered Outcomes Research Institute (PCORI)
 Medical Research Council (UK), Methodology Research Panel
 Netherlands Organisation for Health Research and Development (ZonMw)
- Editorial Board:** *International Journal of Biostatistics*

SERVICE TO THE UNIVERSITY & BEYOND IN RESPONSE TO THE COVID-19 PANDEMIC

- 2020-2021 **Primary Biostatistician for the campus COVID-19 response.**
[UMass COVID-19 Dashboard](#), Director.
[COVID-19 video updates](#), Writer & Producer.
Public Health Response Team, Member.
Epidemiology Advisory Committee, Member.
[Local Epidemic Modeling for Management & Action \(LEMMA\)](#), Biostatistician.

SERVICE TO THE DEPARTMENT & SCHOOL

Ongoing

- 2020–present **Departmental seminar series**, Organizer.
 2019–present **Graduate Affairs Committee**, Chair.
 2018–present **UMass Causality Lab**, Director.
 2017–present **Academic advisor**, 3 PhD students & 12 MS students for AY20/21.

Past

- 2019–2020 **MS degree development & recruitment**, *Committee member*.
- 2018–2020 **Curriculum**, *Committee member*.
- 2018–2019 **Departmental Personnel**, *Committee member*.
- 2017–2018 **Departmental seminar series**, *Organizer*.
- 2017–2018 **Admissions**, *Committee member*.
- 2017–2018 **Student outreach**, *Committee member*.
- 2017–2018 **21st Annual SPHHS Research Day**, *Abstract & Poster judge*.

INVITED RESEARCH SEMINARS - Limited to last 5 years

1. Thomas Jefferson University - Biostatistics Seminar Series: “Causal inference to improve missing data control”, Apr2021
2. Massachusetts Institute of Technology (MIT) - PACT All-Hands Meeting: “Causal inference, Machine Learning, & Missing Data in Infectious Disease Research & Response”, Apr2021
3. University of Massachusetts Amherst - Data meets Healthcare Seminar Series: “Missing data, causal inference, & infectious diseases”, Mar2021
4. Emory University - Department of Biostatistics and Bioinformatics: “Improving community health in East Africa with causal inference and machine learning”, Nov2020
5. University of Massachusetts Amherst - Dean’s Forum: “Public Health & Health Sciences Showcase: Answering the Call in a Time of Pandemic”, Oct2020
6. University of Massachusetts Amherst - Epidemiology Seminar Series: “COVID-19 Research Highlights from the Biostatistics & Epidemiology Department”, Sep2020
7. Boston University - Causal Inference seminar series: “Machine learning to improve control for missing data, to increase efficiency, and for flexible risk prediction in the SEARCH Study”, Apr2020 [Postponed]
8. Georgetown University - Department of Biostatistics, Bioinformatics and Biomathematics (Bio3) Seminar Series: “Causal inference and machine learning in HIV prevention”, Mar2020
9. Delaware ACCEL - Tech Talk Seminar Series: “Machine Learning for Causal Inference”, Mar2020
10. Brown University - Department of Epidemiology: “Causal inference to improve community health in East Africa”, Feb2020
11. University of Massachusetts, Amherst - Kinesiology Department: “Optimizing the design & analysis of randomized trials”, Feb2019
12. University of California, Los Angeles - UCLA Statistics Seminar: “Design & Analysis of Pragmatic, Cluster Randomized Trials”, Feb2019
13. University of California, Berkeley - Berkeley Statistical Methods Seminar: “TMLE for the Analysis of Cluster Randomized Trials with Application to the Primary Analysis in SEARCH”, Sep2018.

14. University of Massachusetts, Amherst - Data Science for Health Lab: “Ensemble & Targeted Learning for HIV Prevention & Treatment”, Jul2018.
15. University of Massachusetts, Amherst - Statistics & Probability Seminar: “A new approach to hierarchical data analysis: Targeted maximum likelihood estimation for the causal effect of a cluster-level exposure”, Apr2018.
16. University of Massachusetts Medical School - Quantitative Methods Core Methods Seminars: “Targeted Learning to evaluate the effects of community-based interventions: the SEARCH trial & HIV prevention in East Africa”, Feb2018.
17. Amherst College Statistics & Data Science Colloquia: “Estimating the Impact of Cluster-Based Interventions: the SEARCH trial and HIV prevention in East Africa”, Feb2018.
18. Yale University - Public Health Modeling Concentration Seminar Series: “Causal inference with cluster-level exposures: HIV prevention in East Africa”, Jan2018.
19. University of Massachusetts, Amherst - Computational Social Science Institute: “Estimating the Effects of Community-based Interventions: SEARCH Trial & HIV prevention in East Africa”, Dec2017.
20. 5College Stats & Data Science Research Bytes (Amherst, MA): “Machine Learning & Causal Inference for HIV Prevention & Treatment, Nov2017.
21. University of Massachusetts, Amherst - Statistics Working Group: “Why Bother with Causal Inference?”, Sept2017.
22. Yale University - Workshop on Quantitative Research Methods: “Targeted Learning in the SEARCH trial and HIV prevention in East Africa”, Mar2017.
23. Harvard School of Public Health - Quantitative Group for Research on Infectious Diseases: “Targeted Learning in the SEARCH trial and HIV prevention in East Africa”, Sep2016.
24. Université de Montréal - Faculté de Pharmacie: “Estimating the Impact of Community-Based Interventions: the SEARCH Trial and HIV Prevention in East Africa”, Oct2016.

■■■■■■ CONFERENCE PRESENTATIONS - Limited to last 5 years

*DENOTES MENTEE; **DENOTES EQUAL CONTRIBUTION

Since many conferences do not distinguish between “invited” vs. “contributed”, all talks are labeled “oral” (as opposed to “poster” presentation).

1. **L. Balzer.** Application of Machine Learning in Cluster Randomized Trials
 2021 *Current Developments in Cluster Randomized Trials & Stepped Wedge Designs*, Queen Mary [Upcoming] University of London (Oral)
2. **L. Balzer**, A. D’Amour, L. Hu, N. Kilbertus, R. Nabi, & U. Shalit. Conference Co-organizer at International Conference on Machine Learning (ICML2021)
 2021 *The Neglected Assumptions in Causal Inference*, Virtual (Oral)
3. **L. Balzer.** Conference Panelist
 2021 *A gentle introduction to targeted learning in RCTs*, Ghent University, Belgium (Oral)

4. J. Nugent* & **L. Balzer**. Examining shifts in mobility on COVID-19 case rates in U.S. counties: A modified treatment policy approach
2021 *Society for Epidemiologic Research*, San Diego, CA (Poster)
5. A. Wong* & **L. Balzer**. Evaluating public masking mandates on COVID-19 growth rates in U.S. states
2021 *Society for Epidemiologic Research*, San Diego, CA (Poster)
6. **L. Balzer**. Challenges and Solutions in the Design and Analysis of Cluster Randomized Trials
2021 *Food and Drug Administration (FDA)*, Virtual (Oral)
7. **L. Balzer**. Machine Learning & Causal Inference for Infectious Disease Prevention.
2021 *Danish Epidemiological Society Annual Meeting*, Nyborg, Denmark (Oral)
8. **L. Balzer**. Discussant: Data and Methods for Causal Inference.
2021 *Population Association of America*, St. Louis, MO (Oral)
9. **L. Balzer**. Panel Discussant: How can epidemiologists ask better questions & get better answers?
2021 *2nd Annual UNC Epidemiology Zoomposium*, Virtual (Oral)
10. **L. Balzer** & the SEARCH Collaboration. Causal inference and machine learning to control for missing data in infectious disease research and response.
2021 *Measuring Development 2021: Emerging Data & Methods in Global Health Research*, Center for Effective Global Action (CEGA) & the World Bank (Oral)
11. C.A. Koss*, J.R. Nugent*, . . . , and **L. Balzer**. Social networks predict PrEP uptake in SEARCH Study in rural Kenya and Uganda
2021 *Conference on Retroviruses and Opportunistic Infections*, Virtual (Oral)
12. **L. Balzer** & the SEARCH Collaboration. Missing data, causal inference, and infectious diseases.
2021 *Voices of Data Science*, UMass Amherst (Oral)
13. **L. Balzer**. Session chair: On non-casual causality: networks, mediation, generalizability & more
2020 *Society for Epidemiologic Research*, Virtual (Oral)
14. H. Saddiki* & **L. Balzer**. High-dimensional feature selection with Super Learner
2020 *Society for Epidemiologic Research*, Virtual (Oral)
15. **L. Balzer** & the SEARCH Collaboration. Far from MCAR: obtaining population-level estimates of HIV viral suppression.
2020 *Joint Statistical Meetings*, Philadelphia, PA (Oral)
16. **L. Balzer**, C.A. Koss*, & the SEARCH Collaboration. Machine learning to identify persons at high-risk of HIV acquisition in rural Kenya and Uganda
2020 *SER-SPC Journal Club*, Virtual (Oral)
17. C.A. Koss*, D.V. Havlir, J. Ayieko*, . . . , **L. Balzer**. Lower than Expected HIV Incidence among Men and Women at Elevated HIV Risk in a Population-based PrEP Study in Rural Kenya and Uganda: Interim Results from the SEARCH Study.
2020 *23rd International AIDS Conference* , Virtual (Oral)
18. J. Peng*, J. Kabami*, J. Ayieko*, . . . , **L. Balzer**, *et al.* Geographic hotspots of high population HIV

viremia and association with HIV incidence in a universal test-and-treat setting in rural Uganda and Kenya.

2020 23rd *International AIDS Conference*, Virtual (Oral)

19. F. Mwangwa, E.D. Charlebois, J. Ayieko*, . . . , **L. Balzer**, *et al.* Overlapping Significant Life Events are Associated with HIV Viral Non-Suppression among Youth in Clinics in Rural East Africa.
2020 23rd *International AIDS Conference*, Virtual (Oral)
20. S. Gupta, J. Kabami*, G. Chamie, N. Sang, D. Kwarisiima, D. Black, **L. Balzer**, *et al.* Population-level HIV-free infant survival in the SEARCH trial.
2020 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Late-breaker Oral)
21. M.D. Hickey*, J. Ayieko*, D. Kwarisiima, F.J. Opel, A.Owaraganise, **L. Balzer**, *et al.* Improved time in care and viral suppression with streamlined care in the SEARCH Study.
2020 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Oral)
22. L. Brown, Y. Chen*, **L. Balzer**, G. Chamie, J. Ayieko, *et al.* Using social networks to reach individuals with low CD4 at high risk of death.
2020 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Poster)
23. S.B. Puryear*, A. Mucunguzi, **L. Balzer**, J. Kironde, J.A. Hahn, *et al.* Alcohol use is associated with incident TB infection in HIV+ and HIV- Ugandan adults.
2020 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Poster)
24. Y. Chen*, G. Chamie, D. Kwarisiima, **L. Balzer**, J. Kabami*, *et al.* HIV+ persons in rural Uganda with fewer social connections have lower HIV suppression.
2020 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Poster)
25. C.S. Camlin, E.D. Charlebois, M.L. Petersen, **L. Balzer**, T.B. Neilands, *et al.* Metrics of mobility by sex are associated with HIV incidence in rural Kenya & Uganda.
2020 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Poster)
26. S.B. Puryear*, D. Kwarisiima, J. Ayieko*, J.A. Hahn, A. Mucunguzi, S. Ogachi, **L. Balzer**, *et al.* SEARCH Test & Treat intervention improves viral suppression among hazardous drinkers.
2020 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Poster)
27. J. Ahern and **L. Balzer**, Estimation approaches for causal inference: parametric and semi-parametric estimators.
2020 *SERtalks-Texas*, Austin, TX (Oral)
28. **L. Balzer**. Far from MCAR: Machine learning to flexibly adjust for missing data.
2019 *Dean's Symposium "Statistics and the Life Sciences: Creating a Healthier World"*, Boston University (Oral)
29. **L. Balzer**. Machine Learning for Causal Inference.
2019 *Kidney Week 2019*, Washington, D.C. (Oral)
30. C. Marquez*, Y. Chen*, M. Atukunda, J. Kironde, C. Chamie, **L. Balzer**, *et al.* Social network characteristics are associated with prevalent tuberculosis infection among people living with and without HIV in nine communities in rural Uganda.
2019 22nd *International AIDS Conference*, Mexico City, Mexico (Oral)

31. C. Koss*, J. Ayieko*, D. Kwarisiima, M. Atukunda, **L. Balzer**, *et al.* PrEP uptake, engagement, and adherence following population-wide HIV testing in rural Kenya and Uganda in the SEARCH Study.
2019 *22nd International AIDS Conference*, Mexico City, Mexico (Poster)
32. S. Puryear*, J. Ayieko*, D. Kwarisiima, J. Hahn, **L. Balzer**, *et al.* Increased levels of current alcohol use are associated with worse HIV care cascade outcomes among HIV-positive adults in rural Kenya and Uganda in the SEARCH Trial.
2019 *22nd International AIDS Conference*, Mexico City, Mexico (Poster)
33. **L. Balzer**. Biologically or socially transmitted outcomes? Be (un)certain of your uncertainty!
2019 *Society for Epidemiologic Research*, Minneapolis, MN (Oral)
34. **L. Balzer**. Super Learning vs. traditional approaches for population-based HIV risk assessment in rural East Africa.
2019 *Society for Epidemiologic Research*, Minneapolis, MN (Oral)
35. **L. Balzer**. An overview of Big Data: Promises and potential pitfalls.
2019 *The Association for Research in Vision and Ophthalmology (ARVO) Conference 2019*, Vancouver, Canada (Oral)
36. **L. Balzer**. Data-adaptive estimation to control for missing data, to increase efficiency, and for risk prediction in the SEARCH Study
2019 *NIAID Conference: Statistical challenges & opportunities in HIV/AIDS research in the era of getting-to-zero HIV infections*, Philadelphia, PA (Oral)
37. J. Kabami*, H. Saddiki* , J. Ayieko*, D. Kwarisiima, . . . , **L. Balzer****, G. Chamie**. SEARCH intervention increases viral suppression among pregnant and postpartum women.
2019 *Conference on Retroviruses and Opportunistic Infections*, Seattle, WA (Poster)
38. G. Chamie, N. Sang, D. Kwarisiima, J. Kabami*, . . . **L. Balzer**, *et al.* Yield of HIV testing and re-engagement of key populations in Uganda and Kenya.
2019 *Conference on Retroviruses and Opportunistic Infections*, Seattle, WA (Poster)
39. L. Brown, **L. Balzer**, J. Kabami*, D. Kwarisiima, N. Sang, J. Ayieko*, *et al.* Social networks and tie strength predict outcomes of HIV+ youth in SEARCH trial.
2019 *Conference on Retroviruses and Opportunistic Infections*, Seattle, WA (Poster)
40. H. Thirumurthy A. Jakubowski, Y. He, J. Kabami*, D. Kwarisiima, N. Sang **L. Balzer**, *et al.* Socioeconomic impacts of universal antiretroviral therapy in the SEARCH trial.
2019 *Conference on Retroviruses and Opportunistic Infections*, Seattle, WA (Poster)
41. D. Kwarisiima, Y. Mwinike, J. Ayieko*, A. Mucunguzi, W. Olilo, **L. Balzer**, *et al.* Hypertension control in integrated HIV/NCD clinics in the SEARCH study.
2019 *Conference on Retroviruses and Opportunistic Infections*, Seattle, WA (Poster)
42. M. Kanya, M.L. Petersen, D. Kwarisiima, J. Ayieko*, N. Sang, J. Kabami, T.D. Clark, E.D. Charlebois, **L. Balzer**, *et al.* SEARCH intervention reduces mortality at a population-level in men with low CD4 count.
2019 *Conference on Retroviruses and Opportunistic Infections*, Seattle, WA (Oral)

43. **L. Balzer.** Pragmatic Trials To Bridge Efficacy to Effectiveness.
2018 *HIV prevention efficacy trials design of the future (HVTN Conference)*, Seattle, WA (Oral)
44. J. Higgins*, **L. Balzer.** Towards Generalizability: Recovering from Non-Random Participant Selection and Measurement
2018 *Research Experiences for Undergraduates (REU) Poster Symposium*, Amherst, MA (Poster)
45. D. Havlir, E. Charlebois, **L. Balzer** T. Clark, D. Kwarisiima, J. Ayieko*, J. Kabami*, *et al.* SEARCH community cluster randomized study of HIV “test and treat” using multi-disease approach and streamlined care in rural Uganda and Kenya.
2018 *21st International AIDS Conference*, Amsterdam, Netherlands (Late-breaker Oral)
46. B. Jewell, **L. Balzer**, T. Clark, E. Charlebois, S.R. Maddali, M. Kanya, D.V. Havlir, M.L. Petersen, A. Bershteyn. Modeling Projected HIV Incidence in the SEARCH Study of Treatment as Prevention in East Africa.
2018 *21st International AIDS Conference*, Amsterdam, Netherlands (Poster)
47. **L. Balzer.** Introduction to and overview of the distinction between generalizability and transportability.
2018 *Society for Epidemiologic Research*, Baltimore, MD (Oral)
48. **L. Balzer.** Multilevel Madness.
2018 *Society for Epidemiologic Research*, Baltimore, MD (Poster)
49. **L. Balzer.** Session Chair & Discussant: Modern Methods for Missingness.
2018 *New England Statistics Symposium*, Amherst, MA (Oral)
50. D. Kwarisiima, J. Kabami*, N. Sang, . . . , **L. Balzer**, *et al.* Who remains untested following near-universal (>95%) population HIV testing?
2018 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Oral)
51. C. Marquez*, A Mucunguzi, G. Chamie, **L. Balzer**, *et al.* Mobility predicts incident TB infection in children & adults in rural Uganda
2018 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Poster)
52. J. Ayieko*, E. Wafula, W. Opudo, C. Cohen, E. Bukusi, T. Clark, **L. Balzer**, *et al.* Phone call from clinical officer at HIV testing/re-contact improves linkage to care
2018 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Poster)
53. S. Lauer*, **L. Balzer**, E. Ray, S. Iamsirithaworn, J. Lessler, N. Reich. Building on forecasting models to assess the impact of an intervention.
2017 *Epidemics 6*, Sitges, Spain (Poster)
54. **L. Balzer.** Causal inference in a big data world - The roadmap
2017 *X Congresso Brasileiro de Epidemiologia*, Florianópolis, Brazil (Oral)
55. **L. Balzer.** The roadmap - a systematic approach from the causal question through the statistical analysis and to impact.
2017 *Joint Statistical Meetings*, Baltimore, MD (Oral)

56. **L. Balzer**, W. Zheng, M. van der Laan, M. Petersen. A new approach to hierarchical data analysis: targeted maximum likelihood estimation of cluster-based exposures under interference.
2017 *Society for Epidemiologic Research*, Seattle, WA (Poster)
57. **L. Balzer**, M. van der Laan, M. Petersen. Targeted Maximum Likelihood with Super Learning to evaluate progress towards HIV care cascade goals: An example from the SEARCH “test and treat” study.
2017 *Society for Epidemiologic Research*, Seattle, WA (Contributed Talk)
58. W. Zheng, N. Sang, G. Chamie, **L. Balzer**, *et al.* Social networks and HIV prevalence in Kenya in the SEARCH study.
2017 *Conference on Retroviruses and Opportunistic Infections*, Seattle, WA (Oral)
59. **L. Balzer**, N. Sang, A. Plenty, T. Liegler, *et al.* Baseline population HIV cascade and 2-yr outcome of HIV+ children in the SEARCH trial.
2017 *Conference on Retroviruses and Opportunistic Infections*, Seattle, WA (Poster)
60. C. Marquez*, A. Mucunguzi, G. Chamie, D. Kwariisima, T. Ruel, **L. Balzer**, *et al.* High TB infection rate in children & young adults in rural Uganda in the SEARCH trial.
2017 *Conference on Retroviruses and Opportunistic Infections*, Seattle, WA (Poster)
61. M. Petersen, **L. Balzer**, D. Kwarsiima, N. Sang, *et al.* SEARCH test and treat study in Uganda and Kenya exceeds the UNAIDS 90-90-90 cascade target by achieving 81% population-level viral suppression after 2 years.
2016 *21st International AIDS Conference*, Durban, South Africa (Late-breaker Oral)
62. **L. Balzer**, W. Zheng, T. Ruel, E.D. Charlebois, *et al.* Changing social networks and increased HIV prevalence in Kenyan adolescent women.
2016 *21st International AIDS Conference*, Durban, South Africa (Poster)
63. **L. Balzer**. Why bother with TMLE (targeted maximum likelihood estimation)?
2016 *Society for Epidemiologic Research*, Miami, FL (Poster)
64. W. Zheng, **L. Balzer**, L. Brown, N. Sang, *et al.* Local social network features predict HIV testing uptake in a rural Ugandan community.
2016 *Conference on Retroviruses and Opportunistic Infections*, Boston, MA (Poster)
65. **L. Balzer**. Conference Co-Organizer.
2015 *Conference on Causal Inference with Highly Dependent Data in Communicable Disease Research*, Cambridge, MA
66. **L. Balzer**, P. Staples, J. Onnela, V. DeGruttola. Using Network-based Simulations to Evaluate the Effect of Adding Targeted PrEP to an Ongoing Treatment-as-Prevention Trial.
2015 *Infectious Disease Research Conference (NIAID/NIH)*, Bethesda, MD (Oral)
67. **L. Balzer**, M. van der Laan, M. Petersen, the SEARCH Consortium. Adaptive Pre-specification in Randomized Trials With and Without Pair-Matching.
2015 *Atlantic Causal Inference Conference*, Philadelphia, PA (Poster)
68. **L. Balzer**, M. Petersen, M. van der Laan, the SEARCH Consortium. Estimating the Sample Average

Treatment Effect in the SEARCH trial.

2015 *Society for Epidemiologic Research*, Denver, CO (Poster)

69. M. van der Laan, **L. Balzer**, M. Petersen. Estimation and Inference for the Sample Average Treatment Effect in Cluster Randomized Trials.

2015 *Atlantic Causal Inference Conference*, Philadelphia, PA (Oral)
