INTRODUCTION

REPORTING ADMISSIONS AND ENROLLMENT

Information for this report is drawn from the computer files maintained by the Undergraduate and Graduate Admissions and Registrars offices. These are working files, built from the daily transactions that represent the campus's official actions with respect to student admissions and enrollment. These "primary" data are captured, processed, and verified before they are put into table form for publication.

Admissions and enrollment activity is ongoing, but a "snapshot" of the data is taken as of the end of the fourteenth calendar day of each semester. It typically takes three or four days for all transactions "as of" this census date to be posted to the computer files.

We report enrollment activity at three levels. The *school or college* is the basic level of analysis. Within this, activity is shown by *department or program*, and within department or program by *discipline or major*, where appropriate (thus, enrollment of Earth Systems majors is shown within the Geosciences Department within the College of Natural Sciences). Admissions activity is reported only at the school or college level, the level at which most undergraduates are admitted. Graduate admissions at the department or program level are reported in the [Graduate School Factbook](#), published by the Graduate School.

Beginning Fall 1995 calculation of undergraduate enrollment data for student majors and instructed students is based upon students' *primary* and *secondary* majors. Reporting conventions for students with multiple majors are as follows: (1) Headcount student majors are computed using all declared majors, (2) FTE student majors are distributed to all major programs, and (3) instructional credit for majors is based on students with any declared major. At the school and college level the number of primary and secondary majors is reported. Graduate enrollment is based on a student's primary major. See **Enrollment Definitions** for a more detailed explanation.

INTRODUCTION (Continued)

ENROLLMENT DEFINITIONS

Headcount Student Majors is the actual count of individual students who have selected a given major or pre-major. Every student is assigned a “major”, even though it may be only an administrative classification (e.g., “non-degree” or “undeclared”).

At the undergraduate level, the count of student majors includes students’ declared *primary* and *secondary* majors. In the case of multiple majors, the enrollment is attributed to both departments. For example, if a student declares a primary major in Communication and a secondary major in Political Science, both departments in their respective colleges receive credit for the enrollment.

Undergraduate Class Level is calculated using the number of credits earned towards graduation. The following credit ranges are used to calculate class level: first-year 0-26; sophomore 27-56; junior 57-86; and senior 87 or more.

Full-Time Equivalent (FTE) Student Majors show how many headcount students there would be if all students took a “full” credit load (15 credits for undergraduates; 9 for graduate students, effective Spring 1992). We look at the credits generated by students within each major regardless of where the courses are offered and then divide by 15 or 9, as appropriate. For undergraduate FTE student majors, the number of credits are distributed based on the number of declared majors. As in the previous example, half of the student’s total credits would be assigned to Communication, and half would be assigned to Political Science.

FTE Instructed Students is a measure of instruction offered and consumed, regardless of the majors of the students taught. We look at the credits generated in the courses offered by each discipline, calculate full-time equivalency, and then distribute instruction according to “majors” and “non-majors.” FTE instructed “majors” are defined as students with any declared major within the department or program offering the course; instructional credits for “majors” are assigned when the student taking the course is also a major in the department offering the course. All other students, including those without a declared major or pre-majors, are defined as “non-majors.” In the case of the student with majors in Communication and Political Science, FTE’s generated in Communication and Political Science would be classified as instruction to majors in the respective departments.

Unlike FTE Student Majors, calculation of FTE Instructed Students depends on the level of the course being taken and the level of the student taking the course. For undergraduate courses (those numbered 100-499) we always divide by 15, whether the student is undergraduate or graduate. Similarly, for graduate courses (those numbered 600-899) we always divide by 9 (prior to Spring 1992, the divisor was 12). For courses numbered 500-599, however, we look to see what kind of student is taking the course: undergraduate, we divide by 15; if graduate, we divide by 9.

DATA COMPARABILITY

Admissions and enrollment data presented in this report are based on the current organizational structure of academic units and departments. During the course of any given semester, organizational, departmental or programmatic changes may occur. Therefore, numbers may not be directly comparable to previous semesters due to the consolidation, reassignment, or suspension of selected academic programs. In many cases, these changes (e.g., program name change, addition or consolidation of undergraduate majors) do not affect the numbers at the school or college level. In addition, enrollment numbers are not directly comparable to semesters before Fall 1995 due to the inclusion of students with multiple majors.

ORGANIZATIONAL CHANGES

The following changes are in effect for Academic Year 2011-2012:

- The Master of Science in Sustainability Science was approved.
- The Master of Public Policy in Public Policy was approved.

Definitions and Notes

Rate: The percent of applicants who were accepted (including either the preferred or alternate major at the undergraduate level).

Yield: The percent of accepted students who enrolled (including either the preferred or alternate major at the undergraduate level).

C.A.G.S. Certificate of Advanced Graduate Study (School of Education only).

Note 1. All data reflect the current organizational structure.

Note 2. Includes students enrolled in at least one credit-bearing course at the end of the fourteenth calendar day of the semester.

Note 3. Information is reported according to the School or College affiliation of the major to which the student **applied** (at the undergraduate level, the preferred major).

Note 4. Some academic units have restricted the number of entering students, and many applicants are offered an alternate major. In the majority of cases, the alternate acceptance and enrollment figures do not represent acceptance or enrollment into that school or college, but acceptance or enrollment as an "Undeclared" major.

Note 5. Students applying to graduate programs administered through CPE are included in the School/College Totals. Students applying to undergraduate programs administered through CPE are reported in Continuing and Professional Education and not included in the totals.

FTE student majors are distributed proportionally across major programs. See Enrollment Definitions for additional details.

Other: Includes post-graduate and all non-degree students.

Active: Matriculating graduate students registered for courses or dissertation credits.

Program Fee (PF): Matriculating graduate students assigned three credits while on Program Fee (no course).

Primary Majors: The actual count of undergraduate students whose primary major is in this school/college.

Secondary Majors: The actual count of undergraduate students whose secondary or tertiary declared major is in this school/college.

Continuing and Professional Education (CPE): Undergraduate and graduate programs administered through CPE.

Note 1. All data reflect the current organizational structure.

Note 2. Excludes UMass undergraduate students on exchange at other institutions.
