

# Admissions and Enrollment Report

Spring 1994

**University of Massachusetts Amherst**  
Office of Institutional Research (OIR)

## INTRODUCTION: REPORTING ADMISSIONS AND ENROLLMENT

Information for this report is drawn from the computer files maintained by the Undergraduate and Graduate Admissions Offices and Registrars. These are working files, built from the daily transactions that represent the campus's official actions with respect to student admissions and enrollment. These "primary" data are captured, processed, and verified before they are put into table form for publication.

Admissions and enrollment activity is ongoing, but we take a "snapshot" of the data as of the end of the fourteenth calendar day of each semester. It typically takes three or four days for all transactions "as of" this census date to be posted to the computer files.

We report enrollment activity at three levels. The **school or college** is the basic level of analysis. Within this, activity is shown by **department or program**, and within department or program by **discipline or major**, where appropriate (thus, enrollment of Art History majors is shown within the Art Department within the College of Humanities and Fine Arts). Admissions activity is reported only at the school or college level, the level at which most undergraduates are admitted. Graduate admissions at the department or program level are reported in the *Graduate School Factbook*, published by the Graduate School.

### A NOTE ABOUT ENROLLMENT DEFINITIONS

**Headcount Student Majors** are the actual count of individual students who have selected a given major. Every student is assigned a "major", even though it may be only an administrative classification (e.g., "non-degree" or "undeclared").

**Full-Time Equivalent (FTE) Student Majors** show how many headcount students there would be *if all students took a "full" credit load* (15 credits for undergraduates; 9 for graduate students, effective Spring 1992). We look at the credits generated by students within each major – regardless of where the courses are offered – and then divide by 15 or 9, as appropriate. Before Spring 1992, 12 credits were considered a full credit load for graduate students.

**FTE Instructed Students** is our measure of instruction offered and consumed, regardless of the majors of the students taught. We look at the credits generated in the courses *offered by each discipline*, and then calculate full-time equivalency. Unlike FTE Student Majors, calculation of FTE Instructed Students depends on the *level* of the course being taken and the *level* of the student taking the course. For undergraduate courses (those numbered 100-499) we always divide by 15, whether the student is undergraduate or graduate. Similarly, for graduate courses (those numbered 600-899) we always divide by 9 (prior to Spring 1992, the divisor was 12). For courses numbered 500-599, however, we look to see what kind of student is taking the course: if undergraduate, we divide by 15; if graduate, we divide by 9.

\* Includes students enrolled in at least one credit-bearing course (including Program Fee enrollment for graduate students) at the end of the fourteenth calendar day of the semester.

† The percent of applicants who were accepted (including either the preferred or alternate major at the undergraduate level).

‡ The percent of accepted students who enrolled.

\*\* Includes post-graduate (second baccalaureate degree seekers) and Exchange students at the undergraduate level.

†† Certificate of Advanced Graduate Study (School of Education only).

‡‡ Other includes pre-majors and undeclared.

Note 1: Information is reported according to the School or College affiliation of the major to which the student applied (at the undergraduate level, the preferred major).

Note 2: Numbers are not directly comparable to previous years due to reorganization of academic units and re-assignment of some departments and programs among Schools and Colleges.

\* High School rank is a percentile scale with 0 representing the top of a class and 99 the bottom.

† 25-75th Percentile represents the range of scores for the middle 50% of students.

‡ Mean and percentiles not calculated when the number of cases is less than three.

\*\* Includes students enrolled in at least one credit-bearing course at the end of the fourteenth calendar day of the semester.

†† Number of students for whom these data were available.

‡‡ Other includes pre-majors and undeclared.

Note 1: Information is reported according to the School or College affiliation of the major to which the student was accepted.

Note 2: Numbers are not directly comparable to previous years due to reorganization of academic units and re-assignment of some departments and programs among Schools and Colleges.

Note 3: Effective Fall 1993, students whose SAT scores are not used for admissions decisions are excluded.

Note 1: "Majors" are defined as students with any declared major within the department or program offering a course. All other students, including those without a declared major, are defined as "non-majors."

Note 2: Effective Spring 1992, the University changed its full-time equivalency (FTE) for graduate students from 12 to 9 credits. Spring 1994 FTEs are comparable to semesters prior to Spring 1992 by multiplying Spring 1994 graduate FTEs by .75.

Note 3: Numbers are not directly comparable to previous years due to reorganization of academic units and re-assignment of some departments and programs among Schools and Colleges.

\* Does not include instruction occurring within the Siena exchange program (data not available as of enrollment census date). In Spring 1993, this program generated 9.8 undergraduate FTE Instructed Students.

Note 1: "Majors" are defined as students with any declared major within the department or program offering a course. All other students, including those without a declared major, are defined as "non-majors."

Note 2: Effective Spring 1992, the University changed its full-time equivalency (FTE) for graduate students from 12 to 9 credits. Spring 1994 FTEs are comparable to semesters prior to Spring 1992 by multiplying Spring 1994 graduate FTEs by .75.
