

Admissions and Enrollment Report

Spring 1995

University of Massachusetts Amherst
Office of Institutional Research (OIR)

INTRODUCTION: REPORTING ADMISSIONS AND ENROLLMENT

Information for this report is drawn from the computer files maintained by the Undergraduate and Graduate Admissions Offices and Registrars. These are working files, built from the daily transactions that represent the campus's official actions with respect to student admissions and enrollment. These "primary" data are captured, processed, and verified before they are put into table form for publication.

Admissions and enrollment activity is ongoing, but we take a "snapshot" of the data as of the end of the fourteenth calendar day of each semester. It typically takes three or four days for all transactions "as of" this census date to be posted to the computer files.

We report enrollment activity at three levels. The **school or college** is the basic level of analysis. Within this, activity is shown by **department or program**, and within department or program by **discipline or major**, where appropriate (thus, enrollment of Art History majors is shown within the Art Department within the College of Humanities and Fine Arts). Admissions activity is reported only at the school or college level, the level at which most undergraduates are admitted. Graduate admissions at the department or program level are reported in the *Graduate School Factbook*, published by the Graduate School.

A NOTE ABOUT ENROLLMENT DEFINITIONS

Headcount Student Majors are the actual count of individual students who have selected a given major. Every student is assigned a "major", even though it may be only an administrative classification (e.g., "non-degree" or "undeclared"). Counts of student majors are based on students' **primary** major, and therefore do not include double majors.

Full-Time Equivalent (FTE) Student Majors show how many headcount students there would be if all students took a "full" credit load (15 credits for undergraduates; 9 for graduate students, effective Spring 1992). We look at the credits generated by students within each major – regardless of where the courses are offered – and then divide by 15 or 9, as appropriate. Before Spring 1992, 12 credits were considered a full credit load for graduate students. To convert FTE student majors prior to Spring 1992, multiply the current semester's FTE by .75.

FTE Instructed Students is our measure of instruction offered and consumed, regardless of the majors of the students taught. We look at the credits generated in the courses offered by each discipline, and then calculate full-time equivalency. Unlike FTE Student Majors, calculation of FTE Instructed Students depends on the *level* of the course being taken and the *level* of the student taking the course. For undergraduate courses (those numbered 100-499) we always divide by 15, whether the student is undergraduate or graduate. Similarly, for graduate courses (those numbered 600-899) we always divide by 9 (prior to Spring 1992, the divisor was 12). For courses numbered 500-599, however, we look to see what kind of student is taking the course: if undergraduate, we divide by 15; if graduate, we divide by 9.

DATA COMPARABILITY

Admissions and enrollment data presented in this report are based on the current organizational structure of academic units and departments. Therefore, School or College totals may not be directly comparable to previous semesters due to the consolidation, reassignment, or suspension of selected academic programs. During the course of any given semester, departmental or programmatic changes may occur. Typically, these changes (e.g. program name change, addition or consolidation of undergraduate majors) do not affect the numbers at the school or college level.

Numbers for this report may not be directly comparable to semesters prior to Fall 1993 as a result of organizational changes, most recently, the Fall 1993 Provost's restructuring (refer to Senate Document 93-037).

* Includes students enrolled in at least one credit-bearing course (including Program Fee enrollment for graduate students) at the end of the fourteenth calendar day of the semester.

† The percent of applicants who were accepted (including either the preferred or alternate major at the undergraduate level).

‡ The percent of accepted students who enrolled (including either the preferred or alternate major at the undergraduate level).

** Includes Post-Graduate (second baccalaureate degree seekers) and Exchange students at the undergraduate level.

†† Certificate of Advanced Graduate Study (School of Education only).

Note: Information is reported according to the School or College affiliation of the major to which the student applied (at the undergraduate level, the preferred major).

* High School rank is a percentile scale with 0 representing the top of a class and 99 the bottom.

† 25-75th Percentile represents the range of scores for the middle 50% of students.

‡ Mean and percentiles not calculated when the number of cases is less than three.

** Includes students enrolled in at least one credit-bearing course at the end of the fourteenth calendar day of the semester.

†† Number of students for whom these data were available.

Note 1: Information is reported according to the School or College affiliation of the major to which the student was accepted.

Note 2: Effective Fall 1993, students whose SAT scores are not used for admissions decisions are excluded.

* "Active" = matriculating students registered for courses or dissertation/thesis credits. "PF" = matriculating students assigned 3 credits while on Program Fee (no course) status.
 † Includes Certificate of Advanced Graduate Study (C.A.G.S.) (School of Education only).

Note: Counts of student majors are based on students' primary major, and therefore do not include double majors.

† Does not include instruction occurring within the Rouen or Siena exchange programs (data not available as of enrollment census date). In Spring 1994, the Rouen program generated 13.7 undergraduate FTE Instructed Students and, the Siena program generated 23.2 undergraduate FTE Instructed Students.

Note: "Majors" are defined as students with any declared primary major within the department or program offering a course. All other students, including those without a declared major, are defined as "non-majors."
